## ONE FEMICIDE WATCH IN EVERY COUNTRY TO END THE SHADOW PANDEMIC

The event is expected to raise awareness, improve knowledge and public recognition of the magnitude of femicide with a perspective of calling on states to collect and analyze annual and comparable data to inform prevention and response to violence against women and girls. The side event will inform about ongoing UN efforts in support of UNECE member states to pursue efforts to address the gap in the availability of data to develop normative frameworks and service provision.
