# What is the WPS-HA Compact?

- **Launched on July 2, 2021** during the Generation Equality Forum to drive a **global movement for action** on existing commitments on Women, Peace and Security and gender responsive Humanitarian Action.
- As an **inclusive** and **intergenerational** movement, the WPS-HA Compact comprises Member States, UN entities, regional organizations, civil society (women and youth organizations and networks), private sector, academic and research institutions.
- Three objectives:
  - Establishing a **voluntary monitoring and accountability process** to realize existing WPSHA commitments.
  - Strengthening coordination** across existing WPS-HA mechanisms, systems, networks, partnerships and capacities.
  - Promoting financing** for and **wider awareness and visibility** of the women, peace and security agenda and on gender equality in humanitarian action.

# VISION 2026

---

## Financing

- Member States prioritize gender-sensitive budgets, funding contributions to WPS and gender equality in humanitarian action in order to meet existing and agreed targets, including by the consistent inclusion of gender analysis and recommendations in all humanitarian appeals, and by a significant increase in funding to local women's rights and women-led organizations

## Women's Participation in Peace Processes

- Peace processes at all levels lead to the systematic inclusion of gender provisions in peace agreements and peacebuilding policies and programs, including gender-responsive implementation and monitoring.

## Women's Economic Security

- Women and girls affected by conflict, crisis and displacement have attained increased economic security, autonomy and empowerment through improved access and control of the resources, skill sets, education and employment opportunities they need.

## Women's Leadership

- Women's representation, participation and leadership in all public institutions and consultations, including in peacekeeping, security sectors, peace building and humanitarian assessment, analysis, programming, planning, response and monitoring, is accelerated with parity as the end goal.

## Protecting and Promoting Women's Human Rights

- Women and girls in all their diversity in conflict and crisis-affected contexts experience significantly fewer violations of their human rights, and threats, attacks and reprisals against women and girls in these contexts are reduced and their consequences mitigated to the greatest possible extent.
