

What is Gender Responsive Budgeting?

Gender responsive budgeting (GRB) is a strategy that considers the different needs and priorities of women and men by integrating gender perspective into all stages of planning and budgeting.

What is the Aim?

The overall objective of gender-responsive budgeting is to achieve a society where women and men enjoy equal rights and opportunities.

But How?

The planning and budgeting processes for public expenditure and public revenue are restructured to meet the different priorities and needs of women and men.
