c. UN Women Terms of Reference

1. Introduction

a. Background/context for required services/results

UN Women is grounded in the vision of equality enshrined in the Charter of the United Nations. UN Women work focuses on several pillars that are fundamental to achievement of equality between women and men as partners and beneficiaries of development: supporting policy planning and gender responsive budgeting, elimination of discrimination against women and girls, ending violence against women, economic empowerment of women, including women with multiple vulnerability. Placing advancement of women's rights at the centre of all its actions, UN Women leads and coordinates United Nations system efforts to ensure that commitments on gender equality and gender mainstreaming translate into action throughout the world. It provides strong and coherent leadership in supporting implementation of national priorities and efforts, building effective partnerships with civil society and other relevant actors.

Through its programmes and projects, UN Women is providing assistance to national partners (governmental and non-governmental) in the implementation of existing international and national commitments to women's rights and gender equality, it facilitates networking and exchange of good practices and advocates for women's rights and gender equality in all areas of life.

In overall terms, Serbia has an all-encompassing legal framework on the issues of both gender-based violence and the cybersecurity ecosystem. However, the interconnectedness of these two issues and specifically the digital dimension of violence against women and girls is still not fully addressed in the legal framework and furthermore, there are enforcement and capacity gaps across the competent government institutions and agencies. In addition, public awareness and knowledge on all forms of violence including digital dimension of violence against women and girls is neither fully developed nor evenly distributed within institutions, stakeholders and affected social groups. Alike,

research on the subject matter and knowledge on how to best respond to the risks of digital violence is evidently scarce.

In order to address all manifestations of gender-based violence, including in digital space, UN Women initiated the project „Combating Violence against Women and Girls in Serbia“, in close cooperation with the Judicial Academy, CSOs, Universities. The project, funded by the US Embassy in Serbia, INL Department, intends to implement a series of educational, analytical (research) activities to capture knowledge and to plan a series of tailor-made trajectories of change to achieve changes in awareness, capacity and legal/regulatory systems, including voluntary self-regulation. Also, this project is to be seen as a meeting point for the right holders, duty bearers, stakeholders and the state, a unique platform where the human rights sector will meet the ICT sector to consider how restorative online technologies can be developed and how effective justice can be reached in a virtual online world. Upholding the rights of women and girls in the digital environment is a shared responsibility that requires a combination of public and private, legal and voluntary measures as well as the participation of women and girls in the development, and this project is fully enforcing this fact in its design.

This project phase, under Output 3.1, **aims to support active engagement of CSOs and their activists in advocating for protection against digital violence against women and girls. Civil society organizations will be supported to implement the initiatives regarding combating digital violence** with the focus on development of innovative initiatives in this area, raising awareness on digital violence issue and drafting local policies in the area.

Grants will be awarded to most promising projects (grants) that exhibit relevance, are well designed and feasible, promise sustainability and practice result based management, always ensuring that financial interests of the donor are considered as well as of UN Women and providing response to mapped problems in resolving digital dimension of violence against women and girls.

UN Women will resort to cooperation and partnership with human rights and women CSOs, youth based CSOs as well as CSOs dealing with the development of digital policies, tools and/or solutions.

b. General overview of services required/results

The project builds on the strong links of UN Women with CSOs in the country. CSOs, in particular women's organizations, play a crucial role in the promotion of gender equality and women's rights. They are key advocacy stakeholders in terms of moving governments from commitment to implementation in relation to international normative standards. They are also key stakeholders in the provision of services that are essential to the establishment of multi-sectoral and coordinated mechanisms to adequately respond to the needs of victims of violence.

Furthermore, civil society organizations are key stakeholders in ensuring that the perspectives and voices of the most excluded and discriminated-against groups of women are heard by policy makers.

The project aims to target human rights and women CSOs, youth based CSOs as well as CSOs dealing with the development of digital policies, tools and/or solutions and support them to implement context-specific innovative and outreach activities in tackling VAWG in digital dimension.

2. Description of required services/results

With a view to achieving the above project aim, it is expected that the selected organization or entity will deliver set of outreach activities aimed at development of innovative activities in preventing and combating VAWG in digital dimension; raising awareness and/or increasing the knowledge of women and girls in Serbia, including those from vulnerable groups facing multiple discrimination, of specialized services provided by CSOs and other relevant stakeholders in combating digital violence as well as drafting local policy/ices in the area of VAWG.

Non-exhaustive list of types of activity which Responsible Party should undertake under this CfP are:

- Develop and implement **innovative activity/ies contributing to dealing with the issue of digital violence against women and girls**. The aim is **supporting women and girls in recognizing, protecting and reporting** this manifestation of gender-based violence.
- Develop and implement awareness raising activities reaching as many women and girls as possible online and/or offline. Awareness can be raised in many different ways including through **at least one info session on phenomenon of the digital violence against women and girls and use of available services for protection from VAWG, including services provided by CSOs**, media campaign, conference, panel and the like. The info session may be realized in many different ways, such as: panels, conference as well as campaign targeting women and girls, including marginalized women (for example young women, older women, women with disabilities, Roma women, rural women, etc.)
- **Draft at least one local policy in the area of elimination of violence against women and girls**. The selected organization or entity will receive comprehensive mentoring support provided by UN Women in drafting the policy/ices, as well as in improving knowledge and skills in participation in institutional dialogue with public authorities, monitoring of local self-government, review of draft policies and intervention options.

All knowledge products and communications materials that would be produced under this agreement must acknowledge the support of and seek the approval of UN Women.

CSOs are expected to submit proposals with clear and specific statement of what the proposal will accomplish, description of implementation strategy, budget and other details, as per requirements stated in Annex B-2 to this Call for Proposals (Template).

3. Timeframe: Start date and end date for completion of required services/results

11. Evaluation of Technical and Financial Proposals

11.1 PHASE I – TECHNICAL PROPOSAL (70 points)

Only proponents meeting the mandatory criteria will advance to the technical evaluation in which a maximum possible 70 points may be determined. Technical evaluators who are members of an Evaluation Committee appointed by UN Women will carry out the technical evaluation applying the evaluation criteria and point ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative technical score of 50 points.

Suggested table for evaluating technical proposal

1	The proposal is compliant with the CFP requirements	15 points
2	The organization's mandate is relevant to the work to be undertaken in the UN Women Terms of Reference (component 1)	20 points
3	The proposal demonstrates a sound understanding of the requirements of the UN Women Terms of Reference and indicates that the organization has the prerequisite capacity to undertake the work successfully (components 2, 3, 4 and 5)	35 points
	TOTAL	70 points

11.2 PHASE II - FINANCIAL PROPOSAL (30 points)

Financial proposals will be evaluated (using **component 6**) following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents' prices to that of the lowest evaluated cost.

Formula for computing points: Points = (A/B) Financial Points

Example: Proponent A's price is the lowest at \$10.00. Proponent A receives 30 points. Proponent B's price is \$20.00. Proponent B receives $(\$10.00/\$20.00) \times 30$ points = 15 points.

12. Preparation of Proposals

- 12.1 Proponents are expected to examine all terms and instructions included in the CFP documents. Failure to provide all requested information will be at the proponent's own risk and may result in rejection of the proponent's proposal.
- 12.2 The proponent's proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that the proponent understands and confirms acceptance of UN Women's stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically addressed in the proponent's proposal will be deemed as accepted by the proponent. The terms "proponent" and "contractor" refer to those organizations that submit a proposal pursuant to this CFP.
- 12.3 Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide one will be viewed as non-responsive.
- 12.4 The terms of reference in this document provides a general overview of the current operation. If the proponent wishes to propose alternatives or equivalents, the proponent must demonstrate that any such proposed change is equivalent or superior to UN Women established requirements. Acceptance of such changes is at the sole discretion of UN Women.
- 12.5 Proposals must offer services for the total requirement, unless otherwise permitted in the CFP document. Proposals offering only part of the services will be rejected unless permitted otherwise in the CFP document.
- 12.6 Proponents may use the services of sub-contractors or sub-partners to partially perform the work except if the proponent is providing grant-making work. The proponent's Technical Proposal shall indicate clearly if the proponent is intending to use sub-contractors or sub-partners and their names. If it is not possible to include the names of sub-partners and sub-contractors in the proposal, the names must be submitted to UN Women as soon as possible.
- 12.7 The proponent's proposal shall state the following and include all of the following labelled annexes:

CFP submission (on or before proposal due date): **27 May 2024 at 23.30 (GMT+1)**.

As a minimum, proponents shall complete and return the below listed documents (annexes to this CFP) **as an integral part of their proposal**. Proponents may add additional documentation to their proposals as they deem appropriate.

Failure to complete and return the below listed documents as part of the proposal may result in proposal rejection.

13 Format and Signing of Proposals

- 13.1 The proposal shall be typed or written in indelible ink and shall be signed by the proponent or a person or persons duly authorized to bind the proponent to the contract. The latter authorization shall be indicated by written power-of-attorney accompanying the proposal.
- 13.2 A proposal shall contain no interlineations, erasures, or overwriting except as necessary to correct errors made by the proponent, in which case such corrections shall be initialled by the person or persons signing the proposal.

14 Award

- 14.1 Award will be made to the responsible and responsive proponent with the highest evaluated proposal following negotiation of an acceptable contract. UN Women reserves the right to conduct negotiations with the proponent regarding the contents of their proposal. The award will be in effect only after acceptance by the selected proponent of the terms and conditions of the agreement and the terms of reference. **The agreement will reflect the name of the proponent whose financials were provided in response to this CFP.** Upon execution of agreement UN Women will promptly notify the unsuccessful proponents.
- 14.2 The selected proponent is expected to commence providing services as of the date and time stipulated in this CFP.

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women Terms of Reference. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the UN Women Terms of Reference.
2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators which will form the basis for monitoring and evaluation. These indicators will be refined, and will form an important part of the agreement between the proponent and UN Women.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component 4.

This section should also include the details of all proposed sub-contracting and sub-partnering.

Component 4: Implementation Plan (max 1.5 pages)

This section is presented in tabular form and can be attached as an annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include all required milestone reports and monitoring reviews in the Implementation Plan.

Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for monitoring and evaluating the activities, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- how the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan;
- how any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received; and
- how the participation of community members in the monitoring and evaluation processes will be achieved.

Component 5: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology involved fails to work as projected) and external factors (for example, significant currency fluctuations resulting into changes in the economics of the activity, risk of sub-contactors or sub-partners not performing). Describe how such risks are to be mitigated.

In this section also include the key **assumptions** on which the activity plan is based on. In this case, the

assumptions are mostly related to external factors (for example, the assumption that the relevant government’s environmental policy will remain stable) which are anticipated in planning the activity, and on which the feasibility of the activities depend.

Please attach a risk register to capture the above risk factors and risk mitigation measures.

Component 6: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact of activities. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.
- The budget should be realistic. Find out what planned activities will actually cost, and do not assume that they would cost less.
- The budget should include all costs associated with managing and administering the activity or results, particularly the cost of monitoring and evaluation.
- The budget could include “support costs”, being those indirect costs that are incurred to operate the Responsible Party as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the work, i.e., operating expenses, over-head costs and general costs connected to the normal functioning of an organization/business (such as cost for support staff, office space and equipment that are not direct costs).
- “Support cost rate” means the flat rate at which the Responsible Party will be reimbursed by UN Women for its support costs, as set forth in the Partner Project Document and not exceeding a rate of 7% or the rate set forth in the Donor Specific Conditions, if that is lower. The flat rate is calculated on the eligible direct costs.
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line-item categories, list the item under other costs, and state what the money is to be used for.
- The figures contained in the budget sheet should agree with those on the proposal header and text.

Please use the exchange rate for April on the following link:
